Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 14 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with brief brighter intervals ahead of rain tonight.

Today:
Rather cloudy with isolated light showers, but some brief brighter intervals are still possible. Cloud will thicken later on across Cumbria ahead of rain arriving later in the evening. Maximum temperature 16 deg C (61 deg F).

Tonight:
Rain moving across the region overnight and clearing away during the early hours of Friday morning. Colder conditions follow on behind, bringing the risk of a local frost first thing. Minimum temperature 2 deg C (36 deg F).

Friday:
A chilly start to Friday but also much clearer skies than of late. A good deal of sunshine throughout the day, though cooler than recent days. Maximum temperature 13 deg C (55 deg F).

Outlook for Saturday to Monday:
Another chilly start on Saturday but steadily turning cloudier and milder again. Gradually turning more unsettled and breezier from Sunday into next week and remaining mild by day and night.
